

Laboratory Activity 3: Create Your 2D Game Prototype

Reflection Questions

1. What tool did you use to create your prototype?
 - Godot 4
2. What part of your game did you prototype?
 - The main combat loop
3. What did you learn from creating the prototype?
 - The main combat loop is the easiest part to make for this game.
4. What part of your game needs improvement?
 - The most obvious is the visuals, but the main improvement that I'm looking for is synergistic card effects.
